

3M Spill Kits

Caring for our environment

Protect your environment with a 3M™ Spill Response Kit.

With 20 years experience manufacturing Oil & Chemical Sorbents you can be sure the many product configurations included in the 3M Oil & Chemical Spill Kits can efficiently address your spill response requirements.

- Fast effective solutions for your clean up requirements.
- Light weight easy to handle.
- Easy to follow Spill Response Instructions & Procedures.
- Fast acting high performance sorbents.

3M Oil Spill Response Kits are designed for use against spills on both land and water. The 3M Oil Sorbent used is a relatively inert melt blown polypropylene material using unique micro bundle technology to allow for maximum absorption. These sorbents repel water while absorbing petroleum and oil based liquids.

> 3M Oil Spill Response Kit, 170 Litre Capacity

Ideal for areas where large spills are likely to occur such as fuel storage areas, loading docks, manufacturing sites and other areas where fuels and petroleum liquids are present. Usage instructions and Personal Protective Equipment are included in this kit.

Contents	Description
1	240 Litre Wheely Bin
2	Double Booms 3M T280 10cm x 23cm x 3m
25	Oil Sorbent Pads 3M HP156 43cm x 48cm
2	Sorbent Petroleum Folded Rolls 3M P-FL550DD
2 Pr	Gloves Solvex Edmont
2	Coveralls Tyvek Disposal XL
5	Bag Yellow 'Contaminated Waste'
2	Respirator 3M 4251 (A1P1)
2	Safety Specs Clear Wrap Around

> 3M Oil Spill Response Kit, 40 Litre Capacity

These kits are easily stored and are excellent for use where the potential for smaller petroleum and oil spills are likely to occur. Usage instructions and Personal Protective Equipment are included in this kit.

Contents	Description
1	60 Litre Drum
17	Oil Sorbent Pads 3M HP156 43cm x 48cm
6	Oil Sorbent Booms 3M T4 Mini 7.5cm x 1.2m
1	Bag Yellow 'Contaminated Waste'
1 Pr	Gloves Solvex Edmont
1	Respirator 3M 4251 (A1P1)
1	Safety Specs Clear Wrap Around

> 3M Oil Spill Response Cab Bag, 25 Litre Capacity

This compact lightweight spill kit is designed to contain a small oil or fuel spill and can be easily stored in the cabins of transport vehicles and can be quickly deployed. Usage instructions and Personal Protective Equipment are included in this kit.

Contents	Description
1	Cabin Bag
