Hörnell Global Acquisition

On March 1, 2004 3M completed the global acquisition of the Hörnell Company, a well renowned maker of unique protective products used in the welding industry, and its Adflo® and Speedglas® brands. In Australia the Hornell product range has been extremely well represented by Australian Welding Supplies (AWS) and their distribution network. To minimise any inconvenience to customers during the transition period, the AWS organization will remain operating as usual and customer access to Speedglas® and Adflo® products will be unchanged. Consequently, all product related enquiries concerning either SpeedGlas® or Adflo® products should be directed to AWS on 02 9439 0111. 3M will be communicating any changes to these arrangements as they arise but in the meantime please call David Duguid, National Sales & Marketing Manager for OH&ES Division on 02 9498 9626 if you have any questions.
